**Reasons for Allowance**

1. Claim 17 is cancelled.
2. Claims 1-10 are allowed for the reason the prior art does not teach gradation estimation means for estimating a record gradation of the patch data on the basis of the read patch data extracted by the patch data extracting means and correction output means for correcting an input color image signal on the basis of the record gradation estimated by the gradation estimating means and the patch data stored in the storage area and for outputting the corrected signal."

Claims 11-16 are allowed for the reason the prior art does not teach or suggest in claimed combination, the pulse width selection table as claimed, the second patch output means as claimed, the second path extracting means as claimed, the second gradation estimation means as claimed, the gradation table setting means as claimed, the third patch output means as claimed, the third patch data extracting means as claimed, the color conversion table as claimed and the color correction output means as claimed.

Claim 18 is allowed for the reason the prior art does not teach or suggest in claimed combination, pulse width selection table setting means as claimed, second patch image forming means as claimed, second patch data extracting means as claimed, second gradation estimating means as claimed, gradation correction table setting means as
